An Employer Advantage

Let's Talk!

You are invited to join Being Human Services and local guest speakers at one of our free interactive roundtable discussions.

Learn some facts and grow your knowledge about diversity, equity, and inclusion (DEI) in conversation with other local employers.

Diversity, equity, and inclusion (DEI) is becoming top of mind for many companies, but many of us lack the knowledge, skills, or tools to take meaningful and long-term action.

Designed to facilitate an increased knowledge of DEI principles and practices, we will explore the visible and invisible differences we each may have. DEI awareness, understanding and engagement can build stronger teams that work together effectively.

For more information and upcoming dates go to www.beinghumanservices.ca and click on the diversity tab or find them on Eventbrite.
